WIRELESS DESIGN & DEVELOPMENT

www.wirelessdesignmag.com

	JANUARY/FEBRUARY Power Issue	MARCH/APRIL RF/Microwave Issue	MAY/JUNE Military/Aerospace Issue	JULY/AUGUST IoT Issue	SEPTEMBER/OCTOBER Automotive Issue	NOVEMBER/DECEMBER Communications Issue
Issue Focus	GaN Energy Harvesting Long Life Batteries	Test & Measurement Semiconductors Software	Unmanned Vehicles Sensors GaN	Smart Homes Wearables Cybersecurity	Autonomous Cars Smart Grid Connected Cars	5G Remote Sensors Sensors for Infrastructure
Tech Feature	Resistors Potentiometers Harsh Environments	Spectrum Analyzers Amplifiers Distribution/Design Services	Military Unmanned Systems Radar Applications	Power Mesh Networks Home Automation	Automated Meter Reading Cables & Connectors Machine-to-Machine (M2M)	Design Software Antenna Arrays Satellite
Industry Trends	Filters	Power	Harsh Environments	Enclosures	Sensors	Wireless Test
Brainstorm	GaN Amplifiers	IEEE IMS	Shielding	Mesh Networks	Machine-to-Machine (M2M)	Test Software
Special Section	Batteries	Test & Measurement	Underground Sensors	Home Automation	Frequency Allocations Wall Chart	Productronica
Departments featured in every issue	**Up Front:** The editors share their thoughts and opinions on the latest trends in the RF and Microwave industries.					
	Top Shelf: Showcase highlighting the most exclusive products in the RF and Microwave industries.					
	What Makes It Tick & Talk: An inside look at the latest products released in the market.					
Product coverage in each issue includes:	• Antennas • Arrays • Attenuators • Batteries • Cable Assemblies	• Converters • Couplers • Data Acquisition • Displays • EMI	• Enclosures • Filters • Gaskets • GaN Amplifiers • Inductors	• Integrated Circuits • Interconnects • LNAs • MMICs • Optoelectronics	• Oscillators • Oscilloscopes • Power Transistors • Proximity Sensors • RF Detectors	• Spectrum Analyzers • Switches • Test & Measurement • Test Connectors • Timing Modules
Events	• CES • Embedded World • Electronics West	• IMS/IEEE Microwave Week • Mobile World Congress • SXSW • APEC • AeroDef Manufacturing • Electronica China • ECIA CARTS • DAS Congress	• EDS • EMC • Sensors Expo	• NI Week • CTIA Super Mobility • EDICON	• MILCOM	• Electronica
Thursday's Targeted Applications	• Thermal Management (7/7) • Display Technology (7/14) • Automotive Infotainment (7/21) • Antennas/Base Station Design (7/28)	• MIMO (8/4) • RFID (8/11) • Harsh Environments (8/18) • Timing Devices/Oscillators (8/25)	• Audio/Video (9/1) • Test & Measurement (9/8) • Renewable Energy (9/15) • Portable Analyzers (9/22) • Consumer Electronics (9/29)	• Medical Electronics (10/6) • Consumer Electronics (10/13) • Semiconductors (10/20) • Optoelectronics (10/27)	• Industrial Automation (11/3) • Portable Power (11/10) • Oscillators/Timing Devices (11/17) • Femtocells (11/23)	• Packaging & Interconnects (12/1) • Military/Aerospace (12/8) • Antennas/Base Station Design (12/15) • Test & Measurement (12/22) • Ruggedization (12/29)
Show Videos	• CES Top 5 • EMC Top 5	IMS Top 5	Sensors Expo Top 5	EDICON Top 5	MILCOM Top 5	Electronica Top 5
Videos	**HotSpot:** *Wireless Design and Development*'s (WDD) HotSpot web series is a weekly newscast that focuses on innovative and exclusive developments in the high-growth wireless, microwave, and RF markets. As part of the WDD channel, the show airs every Monday with Editors Janine Mooney and Sarah Goncalves breaking down the news.					
	Wireless Minute: The daily, 60-second video news brief highlights exclusive products and trends in the high-growth wireless, microwave, and RF markets. This series focuses on Power Management, Board-Level Power, Test & Measurement, and more.
